About Me

Co-founder of 2 Startups (no longer active), over 3 years of experience in software development and 1 year of experience in Product Management, Familiar with & Interested in Artificial Intelligence (ML, DL, NLP), Self-taught Product Designer with +3 years of Experience in UI-UX Design, Junior developer (Python for AI, Vue.js, Flutter).

Work Experience

Associate Product Manager (Talent Program)

Snapp!

Tehran, Iran

February 2022 - May 2022

Tasks and Achievements

- As an APM in Talent Program working closely with the product director at Snapp! cab, I worked on the discovery of 3 different features based on the new SDLC method, tried to present them to different teams and verticals, and document them.

Project Manager - UI Designer

Hivan

Hamadan, Iran

2020 - 2021

Tasks and Achievements

- As a project manager & UI designer at Hivan, a software development team working on variant websites and mobile apps, I worked closely with the developers for over 3 years.

Co-founder - AI Product Manager

Smarton (Startup at DigiNext)

Tehran, Iran

2021 - 2022

Tasks and Achievements

- Working on AI-based products in the e-commerce field, trying to help people choose the best products based on their needs. Our efforts were focused on developing a Recommender System As A Service & a Questionnaire-based Recommender.

Co-founder

Maman Pazon (Startup)

Hamadan, Iran

2018 - 2019

Tasks and Achievements

- A startup that 3 of my friends and I started at university and our goal was to provide homemade healthy food for everyone.
